

GRAM GAMES LAUNCHES LUMINO! EXCLUSIVELY FOR APPLE TV

- The developer's first game for Apple TV, optimized for the big screen and remote
- Players test their wits in this puzzle game with easy to learn and fun to master gameplay

ISTANBUL - December 10, 2015 - Gram Games, the up and coming mobile entertainment studio behind the global hit 1010!, today launched its latest title, Lumino!. Designed exclusively for Apple TV, the gameplay utilizes the remote, while its simple design with vivid colors looks great on a big screen.

Players control Lumino!, the last shard of light left in space, in a race to collect colored orbs of light and keep Lumino! safe from the darkness of space.

It's simple to learn and highly engaging. Starting with 15 moves, players use their Apple TV remote to move Lumino! left, right, up or down to collect bulbs of light and keep Lumino! alive. They collect multiple orbs in one move to receive additional moves, bonuses and a higher score.

Lumino! Key Features:

- Gameplay engineered specifically for Apple TV
- Clean and elegant design that looks great on your TV
- Simple game play that is easy to learn and fun to master
- Uninterrupted gaming - no levels or time limits
